

Jeffrey A. Schoon

EXECUTIVE VICE PRESIDENT
ZURN ELKAY WATER SOLUTIONS

As executive vice president, Jeff is responsible for implementing the company's customer-first commitment, accelerating innovation and growth and delivering value for our customers, associates and shareholders.

Jeff rejoined the company shortly after the 2022 combination with Elkay Manufacturing. From 2010 to 2021, he held roles of increasing responsibility, beginning as corporate director of the Rexnord Business System, later adding product management, marketing and commercial responsibilities, including roles as vice president & general manager of the Global Couplings and then Conveying segments. When the company sold its Process & Motion Control business to Regal Beloit, Jeff and his role as vice president & general manager moved to the new Regal Rexnord Corporation. Earlier in his career, Jeff held engineering and manufacturing roles with Anderson Packaging, Fiskars Group and IDEX Corporation and as a lean management consultant for Duggan Associates.

He earned his BS and MS in manufacturing engineering technology from Western Illinois University.
