

# Jeffrey A. Schoon

PRESIDENT

ZURN ELKAY WATER SOLUTIONS

Jeff is responsible for business development and commercial strategy, fulfillment and customer care, with a focus on growth initiatives and strategic priorities of growing our served markets. He has held this role since 2022.

Jeff joined the company in 2010 as corporate director of the Rexnord Business System, later adding product management, marketing and commercial responsibilities, including roles as vice president & general manager of the Global Couplings and then Conveying segments. When the company sold its Process & Motion Control business to Regal Beloit, Jeff and his role as vice president & general manager moved to the new Regal Rexnord Corporation. He rejoined the company as president shortly after the 2022 combination with Elkay Manufacturing. Earlier in his career, Jeff held engineering and manufacturing roles with Anderson Packaging, Fiskars Group and IDEX Corporation and as a lean management consultant for Duggan Associates.

He earned his BS and MS in manufacturing engineering technology from Western Illinois University.
